

Jan. 3, 2021 – COVID FIRE 6, THE 2021 CHURCH

THE 2021 CHURCH

The refining fire that is taking place now and is coming in much greater measure, will leave nothing unscathed in 2021. It has potential to transform the Christian community

One of the biggest handicaps to our hearing God is the degree to which we have embraced the institutional model of church.

If we understand the planned Great Global Reset* at all, we will easily envision what it means for the church. This is not the secret agenda of a few wild men in distant countries. It is the clearly defined and boldly declared agenda of globalist leaders, including those who intend to soon take office in Washington. They are anti-God and thus anti-Church, and we should prepare ourselves for their initiatives - which will come later if not sooner.

Thus far God's hand through our President has been the only obstacle to the implementation of their plan, and their reaction is obvious. We will soon see what God has in mind for us next politically, but regardless, chaos will likely follow, with serious implications for the Church.

In the extreme, we will need many more beds for the sick and dying as new viruses are introduced, and spread across our nation. Many of our beautiful modern church campuses can easily be converted into medical and administrative facilities by our globalists. Think about that!

Present church-goers will respond in various ways to the challenges of 2021 and a good option will be to embrace the [Mt 16:18](#) Church, the relationally-based, Spirit-led Body of Christ that is without walls and with little structure.

We will be humble, bold and creative in being the people of God, children of Light in this dark world. It will be exhilarating to see the Presence and Power of the Living God doing His work among us without the handicaps of the behemoth institutional systems.

When one considers the true meaning of Church, this is an exciting possible effect of COVID FIRE – for those who have ears to hear and eyes to see. Can you picture all of this happening, or is it only a mad man who would consider such a thing?

Fear not! [John 16:33](#).
