You can enjoy them all when you own a...

LAKE LA-4... *America's Only Production Amphibian*

\$29,950 Complete

Flying takes on a new dimension when you add water capability to your travels. The fabulous LAKE LA-4 opens the fun and pleasure of lakes and rivers yet retains the necessary advantages of airports for gas and maintenance. You go from land-to-sea-to-air with equal facility. The Big Lake Amphibian combines all the most-wanted features of rugged dependability. You get 840 lbs. of useful load while cruising up to 627 miles at speeds up to 135 mph. Stalls at a gentle 50 mph. And what's more, you need only 650 feet for airport landing and just 1125 for a water landing. Dual controls make the transition to water flying a breeze.

Whether you fly for business or pleasure, or both, the LA-4 gives utility never before possible. Call or drop us a line . . . we'd like to tell you more and arrange a demonstration. PRIME DISTRIBUTION AREAS OPEN TO QUALIFIED APPLICANTS.

P.O. Box 399, Hooks Memorial Airport, Tomball (Houston Area), Texas 77375 (713) 795-4521
